

## Strada Real Estate

Building Confidence

### StradaView:

Job Reporting and Inspection Software

Seamless User Experience

Multi-Device Compatibility

Secure and Direct Access

Easy Correspondence

### Overview

As part of our commitment to achieve the best commercial building maintenance solution, Strada Real Estate announces the 2019 release of StradaView, our new job and inspection software.

StradaView is a top-of-the-line software engineered to provide you with the best user experience. Complete with multi-device compatibility, streamlined visual reports and customizable options, with secure and direct access to property information—StradaView delivers more value to our customers.

### Included Services

#### Interior and Exterior Information

- ❑ Customized reporting, including the functionality to search for specific jobs, or the technician who performed the job.
- ❑ The value-added monthly inspections (for up to date) interior and exterior property issues
- ❑ Easy utilization
- ❑ View Interior and Exterior Surveys from Strada Building Technicians

### Customer Benefits

#### Seamless User Experience

- ❑ Easy pull-down menu that allows you to view all your options
- ❑ Search capabilities that allows you to search by: Keywords, Property, or Report Number

#### Multi-Device Compatibility

- ❑ Software is easy to use from any mobile device providing you with more versatility
- ❑ No download required. Just internet access.

#### Secure and Direct Access

- ❑ Access property information directly on a secure platform
- ❑ State of the art encryption ensures property information is secure
